Dear Sir,—I took out a policy in your Company in 1882, Ordinary Life, for \$2.500. I was then fifty-eight years old. I have allowed all the dividends to go to the increase of the insurance, and now my policy is worth \$3.915, an increase of \$1.415. I have insurance in other companies, but the results are far from equaling this. I found out years ago that I had made a mistake in not taking more in this Company and less in others but it was too lafe then to change as I had passed the insurable age.
